

Getting to grips with UK Health and Safety Legislation

Course Objectives:

Effective management of health and safety is a legal requirement. In order to achieve this, it is essential to understand the legislation and what it means for both organisations and individuals. This course is designed to provide delegates with a comprehensive awareness of UK health and safety legislation and law enforcement.

Who Should Attend?

Senior Managers with strategic responsibility for determining and implementing effective health and safety management in an organisation.

Duration: 1 day

Course Content:

The course covers the main areas of:

- The Health and Safety at Work etc Act 1974
- Other UK Legislation
- European Legislation
- The Court System
- Penalties
- Law Enforcement

The course is designed to be delivered either to small groups or on an individual tuition basis.

On successful completion delegates will receive a Certificate of Attendance.
