

IOSH Working Safely

Course Objectives:

Everyone at work should have an understanding of why they must 'work safely' – this course offers exactly that. It focuses on why health and safety is important, and how individuals can make a real difference to the wellbeing of themselves and others through changing their behaviour.

Who Should Attend?

The course is for people at any level, in any organisation who need grounding in the essentials of health and safety.

Course Content:

The course is split into 5 modules as follows:

- Introducing Working Safely
- Defining Hazard & Risk
- Identifying Common Hazards
- Improving Safety Performance
- Protecting our Environment

At the end of the course there is a short assessment to test delegates' understanding using multi-format questions and a hazard spotting exercise.

On successful completion of the course, delegates will receive an IOSH Working Safely certificate.

Duration: 1 day
