

Safe Entry into Confined Spaces

Course Objectives:

This course is designed to ensure confined space workers have up to date knowledge and skills to work safely and effectively.

Who Should Attend?

Any person whose work requires them to enter a Confined Space.

Course Content:

At the end of the course, delegates will have covered the following:

- What is a confined space?
- Permits to work
- Legislation
- Hazards and preventative measures
- PPE
- Apparatus checks and tests
- Role of the person entering a confined space
- Preparing for an emergency
- Practical Assessment

Benefits of attending this course include:

- Up to date knowledge and skills for those working in a confined space
- Reduced risk of accidents and claims
- Increased staff morale
- Compliance with the Health and Safety at Work Act 1974

On completion of the course delegates will receive a Certificate of Attendance.

Duration: 1 Day
